

Readmore 2 - ENG

This plugin show different content whene user is logged/not logged(Plugin Hider)

Readmore2 and Readmore3 add 2 buttons for insert automatically

text with a click,Readmore 2 is configurable into Plugin settings....

Download the zip

<http://www.restyleweb.net/downloads/hide+bottoni.zip>

Inside the zip you find others 3 zip (3 differents plugins),create a new folder extract the zip into a folder

Install 3 plugins with joomla plugin installer

Open general.css in /administrator/templates/khepri/css

where you look.button2-left .image { background: url(..images/j_button2_image.png) 100% 0 no-repeat; }.button2-left .readmore { background: url(..images/j_button2_readmore.png) 100% 0 no-repeat; }

add this:

```
.button2-left .readmore2 { background: url(..images/j_button2_readmore.png) 100% 0 no-repeat; }
.button2-left .readmore3 { background: url(..images/j_button2_readmore.png) 100% 0 no-repeat; }
```

after this little add you look this:

```
.button2-left .image { background: url(..images/j_button2_image.png) 100% 0 no-repeat; }.button2-left .readmore {
background: url(..images/j_button2_readmore.png) 100% 0 no-repeat; }.button2-left .readmore2 { background:
url(..images/j_button2_readmore.png) 100% 0 no-repeat; }.button2-left .readmore3 { background:
url(..images/j_button2_readmore.png) 100% 0 no-repeat; }
```

Publish : Content - Hider , Readmore2 and Readmore3

Enter into Readmore2 settings and choose your link registration: Joomla,Cb,Joomunity,Jomsocial or Virtuemart.

Edit text into txt area of plugin

Now you are ready for use Readmore2 and Readmore 3 plugins, try to create a new article,down of text area you look 2 new buttons: Readmore2 and Readmore3,click Readmore2 for insert text visible only for user not logged and click Readmore3 for insert text visible only for user logged

Here the screenshot:
